

FOR CONGRESS,  
Col. WILLIAM PRESTON.  
FOR STATE SENATE,  
Seventh and Eighth Wards,  
SAMUEL L. GEIGER.  
FOR THE LEGISLATURE,  
From Jefferson City,  
WILLIAM A. MERIWETHER,  
JOSHUA F. BULLITT.  
FOR SHERIFF OF JEFFERSON COUNTY,  
WM. R. VANCE.

TUESDAY, JULY 17, 1890.

For Amusements, Auction Sales, and Steamboats, see appropriate Heads.

Notice to County Daily Subscribers.  
There are many of you who own the Daily Democrat. Your accounts for the same have been forwarded by mail, and those in arrears who don't like to furnish will do themselves the pleasure of reading the Democrat; for their names will be stricken off.

Should any carrier fail to deliver the Democrat promptly, word left at the office will remedy the neglect.

TEARFUL advertisements will please hand in their favors as early as they conveniently can, during the day.

PUBLIC SPEAKING.  
The County Jail will address the people of Jefferson County as follows:  
At 10 o'clock, Tuesday, July 17th.  
At 10 o'clock, Wednesday, July 18th.  
At 10 o'clock, Thursday, July 19th.  
At 10 o'clock, Friday, July 20th.  
At 10 o'clock, Saturday, July 21st.  
At 10 o'clock, Sunday, July 22nd.

A paper mill in Chester county, Pa., has been leased to a party who proposes to manufacture paper from wood.

The best daguerotypes and photographs in the city are made at Brown's gallery, on Main street, second door from the corner of Fifth.

We are obliged to our friends Geo. Hein, John, Esq., and Judge J. C. Johnson, of Jefferson county, for very fine fruit and vegetables.

RESIGNATION OF AN M. C.—Henry Morris, Esq., member of Congress elected from the Hampshire (Mass.) Congressional District, having been appointed a Judge of the Court of Common Pleas resigns the office of Congressman.

Citizens residing on Broadway, near the alley between Market and Jefferson streets, complain of offensive uncleanliness in the shape of dead carcasses in that locality. They have been there for several days, and are "unbearable."

Information has been received at the Department of State of the death of Samuel P. Johnson, Esq., of Pennsylvania. He was a Pennsylvania, and formerly connected with the Democratic press in that State.

SCIENCE IN CALIFORNIA.—Mr. Wm. Moore, formerly of Kentucky, committed suicide by shooting himself in Los Angeles, California, some time during the week. He was a carpenter by trade, but at the time of his death he was keeping a billiard saloon and drinking house.

DEMOCRATS TAKE NOTICE.—The Democrats of the Third and Fourth wards will meet at 10 o'clock, on Tuesday night, to nominate a candidate for the Legislature from that district. All Democrats are invited to attend.

BEVERAGES ABOUT.—We are informed that on Friday night of last week, some one broke into the dwelling of Mr. Priest, on Third street, between Chestnut and Broadway, and rifled his pocket-book of some eleven dollars.

On Sunday night, the same person, perhaps, residence of Mr. Moore, on Third street, between Chestnut and Broadway, and rifled his pocket-book of some other jewelry, and some money. When well your premises, if you have anything to lose.

UNIVERSITY OF LOUISVILLE.—We are glad to perceive, by the catalogue of the Medical department of the University of Louisville for the sessions of 1891-2, that the number of its pupils continues to increase. Its late class numbered 200. The annual circular of the school will be found among our advertisements this morning.

Election of Directors of Frankfort Railroad Company.  
An election of Directors for the ensuing year, took place today, in the Frankfort Railroad Company. The result was as follows: R. C. Johnson, Geo. W. Williams, Thos. C. Johnson, and J. H. Hobbins.

Cum gratia.—We are glad to see that the gutters on Jackson street, between Main and Washington, are in a very filthy condition. On Sixth street, also, the gutters are in a bad condition. Complaints are made daily. Where are the street inspectors, and when are the street-sweeping machines to be put to work?

Railroads are especially referred to the first and fourth pages of the Democrat of this morning. We present several letters from different portions of the State, giving us cheering news of the cause. Upon the fourth page is a thrilling sketch of Count Pulaski at the battle of Brandywine.

We especially direct the attention of our Know-Nothing readers to it.

AN IMPORTANT LAND QUESTION.—It has been decided at the General Land office that under the 5th section of the land act of March 3, 1855, land warrants issued under that act can be located on any of the public lands, which are subject to entry at private land either of the minimum or low graduated price at the time each warrant or certificate may be presented for location. Lands directed to be sold for the benefit of Indians are not so locatable.

Auditor of Knox County, Indiana, is bonded in the sum of two thousand dollars, for the faithful discharge of the duties of his office. The Vincennes Gazette says the school fund of that county now is thirty thousand dollars. The people of that county should be careful to elect an honest man for Auditor, at least until the amount of his bond equals the sum of money at one time in his hands.

PUBLIC SPEAKING.—Mr. Lewis Deabitz will speak on the subjects embraced in the present campaign, in the German language, at the corner of Hancock and Green, on Wednesday night next, at 8 o'clock, and at the Woodland Garden on Saturday night.

Friends of civil and religious liberty are requested to attend. Gentlemen wishing to respond will please give notice, in order to make the necessary appointments.

Now is the time to purify your blood, to rebuild the frame, and make all deteriorated matter generated in the human system. To accomplish this, and enjoy the greatest of all blessings, health, you must take "Harris'." Sarsaparilla. The mass of evidence in favor of this great medicine, and the wonderful cures it is daily effecting, leave no doubt of its medicinal virtues. Every man, whether he is in health or whether he is not, will derive much benefit from the use of a bottle or two.

A NEW LABOR-SAVING INVENTION.—The energy and ingenuity of man was never before so effectively employed in the invention and improvement of labor-saving implements and machines as at the present time. One of the greatest improvements that we have for a long time seen, is in a simple, though ingenious, contrivance, patented by Mr. H. P. Johnson of this city. We are informed by the farmers who have used them, that they have harvested their potatoes with less than half the labor required by the usual method of plowing them out. It will be seen in our advertising columns that Messrs. Bryan, Priden & Co. manufacture and have them for sale.

NOTICES.

See Mr. C. C. Spencer's advertisement of a large lot of coats of almost every description, which is to be sold at 50 cents a coat, at his Auction Rooms, No. 530 Main street, between Third and Fourth. In addition, Mr. S. informs us he will sell a lot of Furniture, belonging to a gentleman removed from the city. We advise dealers and others in want of good articles at low prices to attend to the sale.

W. H. Wharton sells at his Auction Rooms, Market street, between Second and Third, at 10 o'clock this morning, a splendid lot of new Cabinet Furniture, one of the best of the season. Call and get bargains.

Why should most of the Daguerotypes in the city feel cool with weather? Because Carpenter, Swannell & Co. have thrown them in the street.

One of the sufferers that hot weather is "Yankee Charlie," who is now performing his great walking feat at Oak and Centre. Harris & Co. have some good Photographs of him. Copies can be had by calling at their rooms, 477 Main street.

We call the attention of those interested in the advertisement of a Com. Rice of Stockholders in the Texas Immigration and Land Company. Read for particulars.

There are five feet six inches water in the channel and falling. The water is clear and warm.

CINCINNATI, July 16.—M. The river has risen four feet since Saturday. The water is warm.

The Mediator is advertised to leave for New Orleans at 10 o'clock.

The fine and fast steamer Ben Franklin, is up for New Orleans this afternoon at 4 o'clock.

The Kentucky Home did not get yesterday evening as advertised, but will certainly have today.

The Jacob Strider is the regular passenger to-day for Cincinnati, and will leave at 12 o'clock precisely. Every body knows he is the largest and finest boat above the falls.

The Northern did not get off to St. Louis yesterday, but will leave today at 12 o'clock.

The Antelope is the regular packet to-day for New Orleans. Captain Brown commands her, while in the office are those of the Antelope, and the Antelope will be certain to have a speedy and pleasant passage.

Thanks to our attentive friends of the Northern for full river fares, and of the Ben Franklin for the same.

The Ben Franklin came leaving last evening—out today from port, having made 47 landings.

The splendid boat Rainbow, is the regular packet this afternoon for Evansville and Henderson. She is commanded by Captain Hollister, a true and worthy gentleman, and also the best of the season.

Send down your freight and go on board in time.

From the Evening Edition.

HEAT.—The thermometer stood at Third street at 80 at Evansville, Water street at 82.

Arrived—Belle Reunion. Departed—David White.

Mr. Trip.—The Telegraph No. 3 went out this morning with one of the biggest trips of the season. She had a very large number of passengers, and more freight than she could carry. The Captain was compelled to refuse 200 barrels of flour.

MAIL COMPANY.—ARRIVED NEW ORLEANS.—The Directors of the mail line held an adjourned meeting this morning at 10 o'clock, and will not make an election. Another meeting will be held this week, being the first Monday in August.

Some mailboxes and items of interest were crowded out of this morning's paper.

The little R. L. Cobb, now finishing at the wharf, will go to Cincinnati and Nashville on Thursday next. Carver & Jones, on Third street, are her agents, and will receive freight for her.

Thanks to our attentive friends of the fine steamer Antelope for manifest, memorandum, and New Orleans permit to land, and for the most comfortable and safe trip.

A new boat, built for Capt. R. Cochran, was launched from the yard of Cook & Leachman, on Saturday. It is a fine boat, and will be used for the purpose of carrying mail and freight.

The following particulars of the burning of the Mayfield, which was cut from the New Orleans Evening Delta of the 15th:

Particulars of the burning of the M. J. BRANSON, a schooner, seven miles below Brownsville, Texas, on Saturday night last. The schooner was loaded with a cargo of 1000 barrels of cotton and sundries, and was burning brightly. The cause of the fire is not known.

The schooner was loaded with a cargo of 1000 barrels of cotton and sundries, and was burning brightly. The cause of the fire is not known.

The schooner was loaded with a cargo of 1000 barrels of cotton and sundries, and was burning brightly. The cause of the fire is not known.

The schooner was loaded with a cargo of 1000 barrels of cotton and sundries, and was burning brightly. The cause of the fire is not known.

The schooner was loaded with a cargo of 1000 barrels of cotton and sundries, and was burning brightly. The cause of the fire is not known.

The schooner was loaded with a cargo of 1000 barrels of cotton and sundries, and was burning brightly. The cause of the fire is not known.

The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel. The price of osmium has fallen from 10 cents to 5 cents per bushel. The price of selenium has fallen from 10 cents to 5 cents per bushel. The price of tellurium has fallen from 10 cents to 5 cents per bushel. The price of arsenic has fallen from 10 cents to 5 cents per bushel. The price of antimony has fallen from 10 cents to 5 cents per bushel. The price of bismuth has fallen from 10 cents to 5 cents per bushel. The price of mercury has fallen from 10 cents to 5 cents per bushel. The price of cobalt has fallen from 10 cents to 5 cents per bushel. The price of nickel has fallen from 10 cents to 5 cents per bushel. The price of manganese has fallen from 10 cents to 5 cents per bushel. The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel. The price of osmium has fallen from 10 cents to 5 cents per bushel. The price of selenium has fallen from 10 cents to 5 cents per bushel. The price of tellurium has fallen from 10 cents to 5 cents per bushel. The price of arsenic has fallen from 10 cents to 5 cents per bushel. The price of antimony has fallen from 10 cents to 5 cents per bushel. The price of bismuth has fallen from 10 cents to 5 cents per bushel. The price of mercury has fallen from 10 cents to 5 cents per bushel. The price of cobalt has fallen from 10 cents to 5 cents per bushel. The price of nickel has fallen from 10 cents to 5 cents per bushel. The price of manganese has fallen from 10 cents to 5 cents per bushel. The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel. The price of osmium has fallen from 10 cents to 5 cents per bushel. The price of selenium has fallen from 10 cents to 5 cents per bushel. The price of tellurium has fallen from 10 cents to 5 cents per bushel. The price of arsenic has fallen from 10 cents to 5 cents per bushel. The price of antimony has fallen from 10 cents to 5 cents per bushel. The price of bismuth has fallen from 10 cents to 5 cents per bushel. The price of mercury has fallen from 10 cents to 5 cents per bushel. The price of cobalt has fallen from 10 cents to 5 cents per bushel. The price of nickel has fallen from 10 cents to 5 cents per bushel. The price of manganese has fallen from 10 cents to 5 cents per bushel. The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel. The price of osmium has fallen from 10 cents to 5 cents per bushel. The price of selenium has fallen from 10 cents to 5 cents per bushel. The price of tellurium has fallen from 10 cents to 5 cents per bushel. The price of arsenic has fallen from 10 cents to 5 cents per bushel. The price of antimony has fallen from 10 cents to 5 cents per bushel. The price of bismuth has fallen from 10 cents to 5 cents per bushel. The price of mercury has fallen from 10 cents to 5 cents per bushel. The price of cobalt has fallen from 10 cents to 5 cents per bushel. The price of nickel has fallen from 10 cents to 5 cents per bushel. The price of manganese has fallen from 10 cents to 5 cents per bushel. The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel. The price of osmium has fallen from 10 cents to 5 cents per bushel. The price of selenium has fallen from 10 cents to 5 cents per bushel. The price of tellurium has fallen from 10 cents to 5 cents per bushel. The price of arsenic has fallen from 10 cents to 5 cents per bushel. The price of antimony has fallen from 10 cents to 5 cents per bushel. The price of bismuth has fallen from 10 cents to 5 cents per bushel. The price of mercury has fallen from 10 cents to 5 cents per bushel. The price of cobalt has fallen from 10 cents to 5 cents per bushel. The price of nickel has fallen from 10 cents to 5 cents per bushel. The price of manganese has fallen from 10 cents to 5 cents per bushel. The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel. The price of osmium has fallen from 10 cents to 5 cents per bushel. The price of selenium has fallen from 10 cents to 5 cents per bushel. The price of tellurium has fallen from 10 cents to 5 cents per bushel. The price of arsenic has fallen from 10 cents to 5 cents per bushel. The price of antimony has fallen from 10 cents to 5 cents per bushel. The price of bismuth has fallen from 10 cents to 5 cents per bushel. The price of mercury has fallen from 10 cents to 5 cents per bushel. The price of cobalt has fallen from 10 cents to 5 cents per bushel. The price of nickel has fallen from 10 cents to 5 cents per bushel. The price of manganese has fallen from 10 cents to 5 cents per bushel. The price of chromium has fallen from 10 cents to 5 cents per bushel. The price of iron has fallen from 10 cents to 5 cents per bushel. The price of steel has fallen from 10 cents to 5 cents per bushel. The price of copper has fallen from 10 cents to 5 cents per bushel. The price of brass has fallen from 10 cents to 5 cents per bushel. The price of tin has fallen from 10 cents to 5 cents per bushel. The price of zinc has fallen from 10 cents to 5 cents per bushel. The price of lead has fallen from 10 cents to 5 cents per bushel. The price of silver has fallen from 10 cents to 5 cents per bushel. The price of gold has fallen from 10 cents to 5 cents per bushel. The price of platinum has fallen from 10 cents to 5 cents per bushel. The price of palladium has fallen from 10 cents to 5 cents per bushel. The price of rhodium has fallen from 10 cents to 5 cents per bushel. The price of iridium has fallen from 10 cents to 5 cents per bushel.
